

From the Desk of Stephen Belcher

I am pleased to announce the appointment of **Trey Bankson as Chief Operating Officer** for RLS (USA) Inc., reporting directly to me. Trey will succeed Shane Cobb, who was named as our Chief Commercial Officer earlier this week.

Trey's depth of knowledge running profit-focused radiopharmacy operations will help advance our renewed commitment to long-term, sustainable growth and success as a business, as well as our vision of shaping an empowered and agile customer-focused team.

As Chief Operating Officer, Trey will be responsible for leading the day-to-day operations of the RLS network, playing a key role in driving organizational alignment, operations strategy, and performance management for all RLS employees, from our pharmacists and technicians in the labs, to our couriers on the road.

Trey comes to RLS with over two decades of experience in conceptualizing and honing the day-to-day business operations of leading radiopharmacies across the country. He has held senior operations roles at a wide range of pharmacies, including major radiopharmacies like Triad Isotopes—now part of Jubilant Radiopharma, the second-largest radiopharmaceutical network in the United States.

Please join me in congratulating Trey on his new position.

Stephen
