

## **RLS Awarded Radiopharmaceutical Products (Distributor) Agreement with Premier, Inc.**

**LAKE ZURICH, IL.**, June 5, 2023 /PRNewswire/ -- [RLS \(USA\), Inc. \(Radioisotope Life Sciences\)](#), the third-largest nuclear medicine pharmacy network in the US, has been awarded a national group purchasing agreement for the distribution of Radiopharmaceutical Products with [Premier, Inc.](#), a leading healthcare improvement company headquartered in Charlotte, North Carolina.

Effective July 1, 2023, the new agreement allows Premier members, at their discretion, to take advantage of special pricing and terms pre-negotiated by Premier for radiopharmaceutical compounding and delivery services from RLS. RLS is a Joint Commission accredited radiopharmacy network with a national footprint and a recognized leader in USP <797> compliance.

“This agreement marks a major milestone in our ability to supply Premier members with streamlined access to our 24/7/365 network of accredited radiopharmacies, which compound and deliver thousands of patient-specific doses each and every day,” said **Stephen Belcher**, CEO of RLS. “With specialized expertise in the production and last-mile delivery of short-lived isotopes, we are excited to work with Premier members to improve the continuum of care for patients across the country. Opening our doors to Premier members is critical for RLS as we continue to scale our business and work to optimize patient outcomes.”

Under the terms of the agreement, RLS will offer Premier members direct access to its accredited radiopharmacy production and distribution network, which provides industry-leading clean rooms for compounding and proven expertise in last-mile delivery of critical diagnostics and treatments.

Premier is a leading healthcare improvement company, uniting an alliance of approximately 4,400 U.S. hospitals and 250,000 other providers to transform healthcare. With integrated data and analytics, collaboratives, supply chain solutions, consulting and other services, Premier enables better care and outcomes at a lower cost.
